OLD BUSINESS

Micro-surfacing St Maintenance – Joe Wesley

Presented cost effective pavement maintenance product that can last 8-10 years if condition of street being repaired is good. Streets with poorer condition, less years of lasting. When applying the product, have to stay off street for a while, no loose material after applying.

Street Maintenance

Streets and alleys should be graded, total redo would always be the most expensive, so maybe scale back on some alley repair budget and apply to repair others before they get poor. Main from High to South - \$20,000. Orange Street/Quarry from Church to Meadow - \$16,100. Hancock/Highview from E 2nd to N Church - \$31,000. Highview Ct from Highview to end of cul-de-sac - \$7,900. Total estimate of \$75,000 for Micro surfacing work of streets to consider testing product.

OHS Ag Dept. – Kendahlyn Schlueter

Would like to raise chicks and keep and raise the chickens, have a coop. Used as SEA program – students would spear head projects on own with supervision. They have already had green house, nursery and doing gardens for farmer’s markets. Currently ordinance does not allow fowl. Could work up an agreement with school “letter of understanding” or draft a memorandum with lawyer. Motion by Dominick to give the school a letter of understanding to allow chickens for educational purposes. Scudder second the motion. A roll call vote was called. Members voting yea: Dominick, Eipers, Parriott, Schilling, Scudder and Shuman. Zero voted nay. *Motion to give the school a letter of understanding to allow chickens for educational purposes carried unanimously.*
